SANDALWOOD

Investment on land as long term plan is considered as the best available option in the world. We have chosen sandalwood cultivation. Sandalwood is considered as the world most popular and costliest wood. Sandalwood is widely known as Chandanam, Sri Gandam in South and Chandan in North. Its botanical name is Santalum Albam. Sandalwood tree has also come to be known as Wooden Gold.

- Sandalwood is used in fine carvings, sculptures of GODs, Chariots, Music Instruments, other handicrafts and furnishings for decorations.
- Sandalwood oil is used in Aroma therapy perfumes, Soaps, Incense Sticks, Face Powders etc.
- Sandalwood is sometimes used as a preventive measure against skin cancers.
